Yildiz Technical University	WWT, MMT	2	Prof. Volkova	yildiz.edu.tr
Ordu University	MM, BWM	2	Prof. Bernstein/ Prof. Starkloff	odu.edu.tr

* language of instruction for some courses English

** language of instruction for some courses German

**Application deadline:
01 February 2024**

How do I apply?

- Online registration and application until **01 February 2024**
- You can find the link to the application form at: tu-freiberg.de/en/university/facilities/institutions/international-centre/erasmus/erasmus-exchange-studies-abroad
- After completing the application form, you will receive an e-mail with the login link for Mobility Online, where you can upload your application documents (see below)

Which documents do I need for application?

- Transcript of Records ('ECTS-Leistungsübersicht' from self-service portal or Transcript of Records from previous education)
- Current proof of enrolment ('Immatrikulationsbescheinigung' from self-service portal)
- Copy of your language certificate (TOEFL or equivalent)
- Short CV and a passport photo
- Study plan (list of your planned courses/modules at the host university)

For further information please contact:

Michaela Luft, Akademiestraße 6, R. EG.06 (ground floor)

What are the requirements for Erasmus+?

- Good grade point average
- Sufficient language knowledge in the language of instruction at the host institution

What does Erasmus+ offer me?

- No tuition fees at partner institutions
- Mobility grant depending on target country (between 540 and 600 EUR/month)
- Recognition of credits gained abroad as fixed in the Learning Agreement
- Stay abroad possible from 3rd semester onwards for bachelor and Diplom students
- Stay abroad possible from 1st semester onwards for master students
- Stay abroad between 2 and 12 months
- Combination possible with subsequent traineeship
- Support from host institution
- English language study programmes: in the list marked with *

Check carefully whether the study programme offered matches your study interests and whether the courses offered in English or the local language are sufficient!

How are candidates selected?

Selection is done by the faculty, not by the International Centre. If there are more applicants than places, the host university still might accept all students. If not, the faculty allocates the places based on selection criteria (grade points, language proficiency, study course, number of subject-related semesters and ECTS achieved, further commitment).

The places offered at a partner university refer to dedicated subject areas.

If you apply after the deadline, both the funding and the places at your desired host university might be used up!

What happens after selection?

Once your application has been approved by the faculty (usually in March), you are allocated and nominated by the International Centre at your host university, which is confirmed to you via e-mail. Please wait for the confirmation; afterwards you can apply at the partner institution. Most likely, the host university will contact you directly, giving you details on the application process. Application goes along with a Learning Agreement in which you list the courses you wish to attend and which has to be signed by the host institution as well as the Examination Board of your faculty.

Application deadlines (studies and dorms) vary between March and June for the winter semester intake and between October and December for the summer semester intake. Please refer to the partner institutions websites for further information on the application process.

Are you studying with a child or do you have special needs?

Contact us, we can apply for additional funding for you and support you in organising your stay.

Under certain conditions, special funding is also available for working students and students from a non-academic background. For more information, please visit [tu-freiberg.de/en/internationales-universitatszentrum/erasmus/erasmus-top-ups-students](https://www.tu-freiberg.de/en/internationales-universitatszentrum/erasmus/erasmus-top-ups-students).
