

Conversion form for external grades to TU Bergakademie Freiberg, Faculty of Mechanical, Process and Energy Engineering

At the Technical University Bergakademie Freiberg (TU BAF), grades for individual examinations are determined by the respective examiner. In order to differentiate between examination performances, individual grades can be increased or decreased by 0.3 to an intermediate value. The following system of grades is used for the evaluation of examinations:

1,0 / 1,3	very good / very good (-)	outstanding performance
1,7 / 2,0 / 2,3	good (+) / good / good (-)	considerably above average performance
2,7 / 3,0 / 3,3	satisfactory (+) / satisfactory / satisfactory (-)	average performance
3,7 / 4,0	sufficient (+) / sufficient	poor yet acceptable performance
5,0	not sufficient	unacceptable performance with considerable faults

In most cases, grades from universities abroad are not directly comparable with our range of grades and are recognized only as "pass" or "fail".

If a student studying abroad wishes to receive more precise grades during the recognition process, it is necessary for **the examiner from the exchange university to give a recommendation as to how the individual grade should be converted into our grading system for each single examination / grade**. Students of our Faculty of Mechanical, Process and Energy Engineering studying abroad are responsible for informing the respective examiner by means of this form and for submitting conversion recommendations for all exams taken to the examination Board at TU BAF before recognition.

Some examples of possible grade comparisons with partner universities of TU Bergakademie Freiberg are given on the reverse.

General data (to be filled in by the student):

Receiving institution - University: _____
 Faculty / Department: _____
 Student's last name(s), first name(s): _____
 Gender / Date of birth: _____
 Study program at TU BAF: _____

Examination details (to be filled in by the examiner):

Course Code/Title/Number of ECTS: _____
 Examiner's name / email: _____
 Date of examination: _____
 Grade at receiving institution: _____
 Recommended grade in Freiberg: _____

Place / Date

Signature / Seal (Examiner)

Signature (Student)
