

## Job Posting: Student Assistant / Research Assistant (SHK/WHK) for the MentalMINT project

We are looking for **six committed student assistants (SHK) or research assistants (WHK)** from all faculties to join the “MentalMINT”\* project as soon as possible.

### Requirements:

- Interest in topics relating to mental health and neurodiversity in connection with good teaching
- Strong communication skills
- Organisational skills, particularly when working with groups
- Reliability
- Very good command of German and English

The positions are fixed-term until 31.12.2027. The workload averages 20 hours per month.

### Your responsibilities will include:

- Assisting with the design, implementation and evaluation of future workshops (Zukunftswerkstätten) with students
- Reaching out to students and recruiting participants, particularly from your own faculty, for the future workshops
- Supporting the project team

If you are interested, please send your application documents by **10.05.2026**, to **[nathalie.puschmann@grafa.tu-freiberg.de](mailto:nathalie.puschmann@grafa.tu-freiberg.de)**. Please state in your application which faculty you belong to and do not hesitate to contact us if you have any questions.

\*The **MentalMINT** project aims to support lecturers at TU Bergakademie Freiberg in better supporting students with mental health issues and neurodivergent students. To this end, lecturers are made aware of these issues, receive further training, and are equipped with specific teaching methods and tools to create more inclusive teaching and learning environments. At the same time, affected students are actively involved in the development process to devise practical solutions. The aim is to break down barriers to learning, strengthen students' ability to study and better realise the potential of this student group.
