The Faculty of Business Administration at TU Bergakademie Freiberg seeks to fill the position of a (W2) professorship in Business Administration with a focus on Corporate Sustainability and Environmental Management at the earliest possible date.

The successful candidate has a background in business administration with a focus on corporate sustainability and environmental management. The candidate is expected to have experience in the processes, structures, and regulations of companies and markets for energy and resources as well as in environmental issues.

In particular, experience is expected in several of the following areas:

- Sustainable strategies of corporate supply, (re)utilization, avoidance, or disposal in the areas of strategic resources, energy, waste treatment, and the circular economy;
- Feasibility studies, profitability, and sustainability analyses of energy/resources-related large-scale projects and technologies;
- Eco balances / audit schemes and environmental (life cycle) assessment of corporate processes, technologies, and products;
- Environmental corporate valuation based on eco-management systems, environmental audits, and CSR-ratings.

The candidate is expected to develop and teach modules for both English (International Business and Resources in Emerging Markets (IBRE) MBA) and German (especially Business Administration and Industrial Engineering) degree programmes at the bachelor, master, and Diplom level. These modules will also be integrated into degree programmes of other Faculties. The candidate is expected to supervise the IBRE degree programme.

Close collaboration in research is desirable; in particular, with colleagues from the Economics and Law departments. The candidate is also expected to cooperate in interdisciplinary research projects with the other faculties and the Helmholtz Institute Freiberg for Resource Technology (HIF). Applications should contain a teaching and a research concept that links the candidate’s research background with the requirements of the Faculty and the University.

The candidate is expected to conduct research that is aligned with the research fields of the Faculty; in particular, the research profile of the University. The Faculty of Business Administration is interested in candidates who have published in - high-ranking international publications and acquired third-party funding. The successful candidate is expected to teach courses in both German and English.

The candidate must meet the general criteria for an appointment as a professor according to §58 of the “Sächsisches Hoch!chulreformgesetz” (Higher Education Act of Saxony) dated January 15, 2013, in its currently valid and applicable version. Essential requirements include a university degree, a Ph.D. degree, and additional proof of qualification for a professorship, typically shown by a habilitation degree, a previous tenure as a professor, or an equivalent excellent research record.

The University actively supports the provision of childcare facilities as well as appropriate local job placements for partners or spouses. Technische Universität Bergakademie Freiberg is committed to increasing
the number of women in teaching and research positions, hence, qualified female candidates are especially encouraged to apply. Equally qualified candidates with disabilities will receive preferential consideration.

Written applications accompanied by supporting documentation (curriculum vitae, scientific career, copies of qualification certificates, list of publications, teaching record and evaluations, statement of future research, along with a certified copy of the highest academic degree) should include the reference number (101/2021) and be sent no later than **25.07.2021** via email to bewerbungen@tu-freiberg.de or via post to:

TU Bergakademie Freiberg  
Dezernat für Personalangelegenheiten  
D-09596 Freiberg, Germany
