

# EIT RAWMATERIALS – HIGH LEVEL PROFESSIONAL SCHOOL

## CALL FOR TRAINING IDEAS INSTRUCTIONS AND PROCESS DESCRIPTION

**Become a certified Trainer for the EIT RawMaterials – High Level Professional School!**

Are you an expert? Then shape the future of your field of expertise and become a certified trainer for the EIT innovation community “RawMaterials”! Get your ideas off the ground and infuse the industry with your innovations.

If you already are a lecturer or trainer or you have valuable knowledge that needs to be taught to a wider audience of industry representatives or researchers, we provide the framework for your teaching ideas and make you part of our innovation community. We need your ideas for the courses of tomorrow!

In 2018 we – the EIT RawMaterials Regional Center Freiberg (RCF) – ask you to provide your training ideas on the focus topic of “Environmental Issues in the Raw Materials Sector”! Other topics for short courses to provide alongside the focus topic are also very welcome.

**What is the EIT?**

Created in 2008, the European Institute of Innovation and Technology (EIT) is a unique initiative funded by the European Commission that spurs innovation and entrepreneurship across Europe.

We bring together leading universities, research labs and companies to form dynamic pan-European partnerships. These unique partnerships, called Innovation Communities, develop innovative products and services, start new companies, and train a new generation of entrepreneurs. They bring ideas to the market, turn students into entrepreneurs and, most importantly, they innovate. The EIT Community puts entrepreneurs and innovators at the heart of our efforts.

The EIT’s support helps innovators and entrepreneurs across Europe to turn their ideas into products and services for the market. This is crucial to fulfilling the mission of the EIT: delivering the jobs and sustainable economic growth opportunities that Europe is seeking. The EIT is playing a vital role in helping to increase economic growth and create jobs.

The EIT innovation community “RawMaterials” is the largest and strongest consortium in the raw materials sector worldwide. Its vision is a European Union where raw materials are a major strength. Its mission is to boost competitiveness, growth and attractiveness of the European raw materials sector via radical innovation and guided entrepreneurship.

EIT RawMaterials unites more than 100 partners – academic and research institutions as well as businesses – from more than 20 EU countries. They collaborate on finding new, innovative solutions to secure the supplies and improve the raw materials sector all along its value chain – from extraction to processing, from recycling to reuse.

## Who takes part in the EIT RawMaterials – High Level Professional School courses?

- Reach businesses and researchers worldwide by taking part in a multi-national community
- Adult learners, including but not limited to:
  - top and executive management
  - technical staff
  - research and development staff
  - on site personnel

## What's in it for you?

- Become a certified trainer for the EIT RawMaterials Professional Schools
- Use the vast network of the EIT community to get in contact with our many partners and find profitable and like-minded contacts
- Make use of the EIT RawMaterials RCFs experienced team of event organizers who will support you and will manage most things around your course for you, so you can focus on the contents of the course
- Once accredited as an EIT RawMaterials Professional School Trainer, you can repeat your courses in certain intervals according to your schedule and availabilities and easily offer further courses with additional topics
- Facilitated entry to the European training market helps to make your expertise known and internationalizes your courses
- Above trade standard trainers fees, travel expenses and catering

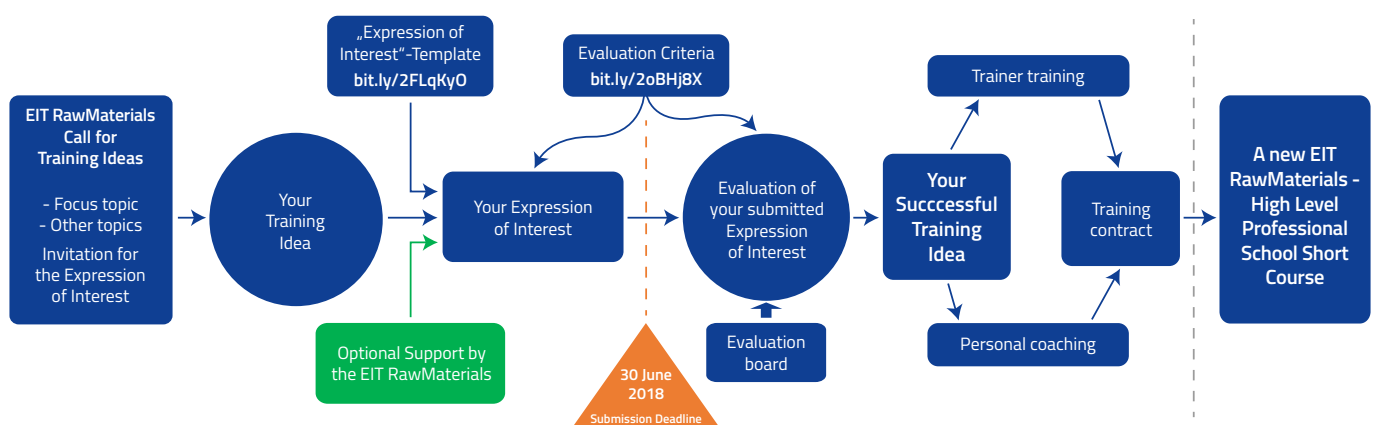

## What are our services?

- **A program for Trainer Excellence** including a seminar and personal coaching sessions to assist you, the subject expert, to design effective trainings and to develop a common training style throughout all RawMaterials Professional School courses
- **Become part of the EIT brand:** A high level of quality assurance throughout the whole EIT RawMaterials Professional School will guarantee customer satisfaction and brand recognition
- **An experienced team of event organizers** provides practical help and makes sure that you can concentrate on giving the best course possible without having to think about any of the logistics behind it
- **Increased market reach for your ideas** will be gained by using our international networks. We will reach out to our partners and beyond to bring your course ideas to market and collaborate with you to reach your target audience
- **You can share your teaching engagements,** if you want. We assist you in becoming a multiplier and design train the trainer session to bring your knowledge to as many audiences as possible. Together we can reach audiences in many countries and transfer your knowledge in other speech communities

## How does your training idea become a new EIT RawMaterials Professional School short course?

Please provide an expression of interest (templates available at [bit.ly/2FLqKyO](http://bit.ly/2FLqKyO)) and outline what your training would look like: define a topic, course content, course design and teaching methods & materials, intended learning outcomes and your audience and send this to:

[rawmaterials@eit.tu-freiberg.de](mailto:rawmaterials@eit.tu-freiberg.de)  
 deadline: 30 June 2018

**How does your training idea become a new EIT RawMaterials Professional School short course?**

- If you have questions or need support please do not hesitate to contact us!
- Your expression of interest will be assessed by an evaluation board consisting of at least one industry representative, one content expert and one pedagogical expert. To make the process transparent, you can see the evaluation criteria online under: [bit.ly/2oBHj8X](https://bit.ly/2oBHj8X). Please take these into consideration when working on your expression of interest.
- The evaluation board evaluates the expressions of interest and delivers a training proposal on the most relevant courses.
- Every submission will receive feedback, so even if your expression of interest did not make the cut at first, you can revise it and resubmit later.
- If your submission has been elected the EIT RawMaterials team will then contact you and will work together with you to launch your idea in the most effective way. Together we will be able to choose which parts of the program for trainer excellence suits you best and you will receive your training contract.
