

What we need from you...

21./22. August @ Wolkenstein

- Discuss your topics, create working groups, find possible Subprojects, formulate up to 10 precise scientific/structural goals

Right after the Workshop

- your ½ DIN A 4 short summary for the proceedings

15. September 2017

- 2 pages summary of your research plan related to TRI-X
 - ✓ Why is this important to TRI-X; connection to Geo/Matter/Simu-X
 - ✓ Possible collaborations with other P.I. / institutes / research areas
 - ✓ Ability to use special equipment / machines / etc.
 - ✓ Outstanding research / experience in this field; publications
 - ✓ Sketch of subproject (titel, work plan etc.)
 - ✓ Possible members for advisory board

Project Area 2: Matter-X

Subproject	Project Title	Research Area	Coordinator
M01	Structure investigation by X-Ray methods	Materials Science	David Rafaja
M02	What about some Raman?	Structure Analysis	Cameliu Himchinschi
M03	Maybe some EELS, too?	Spectroscopy	Martin Knupfer
M04			
M05
