

## **1. Publikationen in Zeitschriften**

1. W. Gasser and J. Monecke  
Renormalization and damping of optical spin waves in a Heisenberg ferromagnet  
phys. stat. sol. 36 (1969), K147 - K150
2. J. Monecke  
Surface exchange modes in a ferromagnetic rectangular prism  
phys. stat. sol. 38 (1970), K81 – K83
3. W. Gasser, J. Monecke, and S. Roth  
Damping of optical magnons due to dipole-dipole interaction  
phys. stat. sol. 38 (1970), K105 – K109
4. G. Heber, F. Goedsche, E. Heiner, J. Monecke, and H. Wenzel  
Surface-exchange modes in ferromagnetic particles and thin films.  
Journal de Physique, Supplement au n° 2-3, Tome 32, (1971), C1-1165 - 1167
5. K.-H. Heinig and J. Monecke  
Specific heat of the four-point Hubbard model  
phys. stat. sol.(b) 49 (1972), K139 – K140
6. K.-H. Heinig and J. Monecke  
Magnetic properties of the four-point Hubbard model  
phys. stat. sol.(b) 49 (1972), K141 – K143
7. K.-H. Heinig and J. Monecke  
Conductivity of the four-point Hubbard model  
phys. stat. sol.(b) 50 (1972), K117 – K120
8. J. Monecke  
Conduction in narrow energy bands  
phys. stat. sol.(b) 51 (1972), 369 - 376
9. J. Monecke  
Cluster approach to the conductivity in narrow energy bands  
phys. stat. sol.(b) 51 (1972), K81 – K83
10. J. Monecke  
Plasma oscillations near the Mott transition  
phys. stat. sol.(b) 53 (1972), K109 – K112
11. K.-H. Heinig, W. Löser, and J. Monecke  
Thermodynamic properties of the disordered four-point Hubbard model  
phys. stat. sol.(b) 53 (1972), K113 – K116

12. J. Monecke  
On a cluster approach to the Hubbard model  
phys. stat. sol.(b) 57 (1973), K21 – K25
13. J. Monecke  
On the definition of the current operator - application to the Hubbard model  
phys. stat. sol.(b) 62 (1974), 417 - 423
14. J. Monecke  
On the chemical potential of the Hubbard model  
phys. stat. sol.(b) 65 (1974), 231 - 237
15. J. Monecke  
Single-particle excitations in Mott insulators  
phys. stat. sol.(b) 65 (1974), 505 - 511
16. A. Heinrich, J. Monecke, and L. Pasemann  
Zur Bandstruktur von  $A^{II} B^{IV} C^V$ -Halbleitern  
Freiberger Forschungshefte B 175 (1975), S. 109
17. J. Monecke  
On the phase diagram of the Hubbard model  
phys. stat. sol.(b) 74 (1976), K57 – K60
18. L. Pasemann, W. Cordts, A. Heinrich, and J. Monecke  
Band structure calculation of  $ZnSiP_2$   
phys. stat. sol.(b) 77 (1976), 527 - 533
19. J. Monecke  
One-particle spectrum of correlated electrons near the free electron limit  
phys. stat. sol.(b) 84 (1977), 665 - 672
20. W. Cordts, A. Heinrich, and J. Monecke  
Electronic band structure of pseudodirect chalcopyrite semiconductors  
I.  $CdSiP_2$  and  $ZnSiP_2$   
phys. stat. sol.(b) 96 (1979), 201 - 209
21. W. Cordts, A. Heinrich, J. Monecke, and L. Pasemann  
Elektronische Bandstruktur ternärer Chalkopyrithalbleiter  
Freiberger Forschungshefte B 207 (1980), S. 79 - 92
22. P. Deus, A. Heinrich, G. Irmer und J. Monecke  
Phononen in ausgewählten ternären Chalkopyriten  
Freiberger Forschungshefte B 207 (1980), S. 93 – 103
23. G. Babonas, A. Heinrich, W. Cordts, J. Monecke, and A. Shileika  
Išsledovanija zonoji strukturi psewdopramozonnič sojedinenii  $A^2B^4C^5_2$   
Lietuvos fizikos rinkinys XX (1980), 19 - 38

24. J. Monecke, W. Siegel, E. Ziegler, and G. Kühnel  
On the concentration dependence of the thermal impurity-to-band activation energies in semiconductors  
phys. stat. sol.(b) 103 (1981), 269 - 279
25. J. Monecke  
On the insulator-metal transition in doped semiconductors  
phys. stat. sol.(b) 103 (1981), K115 – K117
26. A. Heinrich, W. Cordts, and J. Monecke  
Electronic band structure of pseudodirect chalcopyrite semiconductors II. ZnGeP<sub>2</sub> and ZnSiAs<sub>2</sub>  
phys. stat. sol.(b) 107 (1981), 319 - 333
27. G. Irmer, V.V. Toporov, B.H. Bairamov, and J. Monecke  
Determination of the charge carrier concentration and mobility in n-GaP by Raman spectroscopy  
phys. stat. sol.(b) 119 (1983), 595 - 603
28. B.H. Bairamov, G. Irmer, J. Monecke, and V.V. Toporov  
Experimental Observation of Spectral Fine Structure in the Light Scattered by Local Dielectric Modes  
JETP Letters (USA) 38 (1983), p. 281 - 284
29. B.H. Bairamov, G. Irmer, J. Monecke, and V.V. Toporov  
Eksperimental'noe obnaruzenie tonkoj strukturoj spektrov rassejanija sveta dielektriceskymi lokal'nymi modami  
Zh. eksper. i teoret. fiz., pis'ma 38 (1983), 238 - 240
30. J. Monecke  
Dielectric function and conductivity of p-type semiconductors  
phys. stat. sol.(b) 121 (1984), 329 - 338
31. G. Irmer and J. Monecke  
Raman spectroscopic determination of the free carrier concentration and mobility in n-GaP  
Laser Applications 3 (1984), p. 49 - 53
32. B.H. Bairamov, G. Irmer, J. Monecke, and V.V. Toporov  
Observation of Light Scattering by Localized Optical Phonons Bound to Neutral Donor Centers with Degenerate Ground State  
JETP Letters, 41 (1985), p. 428 - 431
33. B.H. Bairamov, G. Irmer, J. Monecke, and V.V. Toporov  
Obnaruzenie rassejanija sveta svjazannymi sostojanijami donornych zentrach s vyrozdennym osnovnym sostojanijem  
Zh. eksp. i teoret. fiz. pis'ma 41 (1985), 349 – 352

34. B.H. Bairamov, V.V. Toporov, G.Irmer, and J. Monecke  
Observation of Raman scattering by localised optical phonons bound to neutral impurities  
Solid State Comm. 55 (1985), p. 487 - 490
35. G. Irmer, J. Monecke, and W. Siegel  
Raman scattering study of dopant homogeneity in GaP and GaAs single crystals  
Crystal Research & Techn. 20 (1985), p. 1125 – 1131
36. G.Irmer, A. Heinrich, and J. Monecke  
First order Raman scattering in CdSnP<sub>2</sub>  
phys. stat. sol.(b) 132 (1985), 93 - 98
37. L. Rost und J. Monecke  
Absorption und Dispersion seismischer Wellen in Festgesteinen  
Gerlands Beiträge Geophysik, Leipzig 95 (1986), S. 15 - 26
38. H. Wiesner, W. Cordts, and J. Monecke  
On the influence of the non-locality of exchange and correlation on the total energy and on the band gap of silicon  
phys. stat. sol.(b) 134 (1986, K63 – K66
39. H. Wiesner, W. Cordts, and J. Monecke  
Self-consistent calculation of the equilibrium lattice constant and of the bulk modulus of silicon with local and nonlocal exchange-correlation functionals  
phys. stat. sol.(b) 134 (1986), K93 – K95
40. G. Irmer and J. Monecke  
On the magnitude of the Jahn-Teller effect on shallow donors in many-valley compound semiconductors  
phys. stat. sol.(b) 134 (1986), K129 – K132
41. G. Irmer, J. Monecke, B.H. Bairamov, and V.V. Toporov  
Phonon shifts in GaP due to temperature and pressure rise induced by a laser beam  
phys. stat. sol.(b) 136 (1986), 481 - 488
42. H. Wiesner, W. Cordts, and J. Monecke  
On the Shaw potential and its application to self-consistent band structure and total energy calculations for silicon  
phys. stat. sol.(b) 137 (1986), K161 – K166
43. J. Monecke, W. Cordts, G. Irmer, B.H. Bairamov, and V.V. Toporov  
LO-phonon modes bound to neutral impurities in semiconductors  
I.General theory  
phys. stat. sol.(b) 138 (1986), 685 – 691
44. G. Irmer, J. Monecke, B.H. Bairamov, and V.V. Toporov  
On the electronic Raman scattering at minority impurities in GaP  
phys. stat. sol.(b) 139 (1987), K157 – K160

45. J. Monecke  
Material constants of composites  
I. General Theory for the dielectric constant  
phys. stat. sol.(b) 140 (1987), 279 - 287
46. J. Monecke  
Material constants of composites  
II. An improvement over the coherent potential approximation for crystal with site-diagonal disorder  
phys. stat. sol.(b) 141 (1987), 173 – 176
47. W. Cordts, H. Wiesner, and J. Monecke  
Pressure dependence of the electron density in silicon  
phys. stat. sol.(b) 141 (1987) K53 – K56
48. J. Monecke, W. Cordts, G. Irmer, B.H. Bairamov, and V.V.Toporov  
LO-phonon modes bound to neutral impurities in polar semiconductors  
II.Special cases and experimental results  
phys. stat. sol.(b) 142 (1987), 237 - 246
49. J. Monecke  
Material constants of composites - The permeability of mixtures of superconducting with non-superconducting phases  
phys. stat. sol.(b) 143 (1987), K43 – K45
50. J. Monecke  
Material constants of composites  
III. Development of the general theory and application to alloys with off-diagonal disorder  
phys. stat. sol.(b) 144 (1987), 693 - 700
51. J. Monecke  
Theory of Fermi resonances in Raman and infrared spectra  
Journal of Raman Spectroscopy 18 (1987), p. 477 - 479
52. B.H. Bairamov, G. Irmer, J. Monecke, V.V. Toporov, N.W. Agrinskaja, and S. A. Samedov  
Kombinacionnoe rassejanie sveta svjazannymi fonon-plazmonnymi modami v kristallach tellurida kadmija  
Fiz. tverd. tela 29 (1987), 2201 – 2203
53. L. Rost und J. Monecke  
Nachwirkungsbedingte Unterschiede statischer und dynamischer Elastizitätsmoduln von Gesteinen  
Neue Bergbautechnik 18 (1988), S. 29 - 32
54. B.H. Bairamov, I.P. Ipatova, V.A. Milorova, V.V. Toporov, K. Naukkarinen, T. Tuomi, G. Irmer, and J. Monecke  
Theoretical and experimental study of Raman scattering and infrared reflectivity in indium phosphide  
Phys. Rev. B 38 (1988), p. 5722 – 5725

55. G. Irmer, M. Herms, J. Monecke, and H. Bock  
Raman scattering from LO-phonon-plasmon modes in GaAs<sub>1-x</sub>P<sub>x</sub> crystals  
phys. stat. Sol.(b) 145 (1988), K79 – K82
56. B.H. Bairamov, V.V. Toporov, N.V. Agrinskaya, E.A. Samedov, G. Irmer, and J. Monecke  
Raman scattering by coupled LO-phonon-plasmon modes in CdTe  
phys. stat. sol.(b) 146 (1988), K161 – K165
57. J. Monecke  
Band tails in the density of states of mixed crystals  
phys. stat. sol.(b) 152 (1989), 123 - 134
58. J. Monecke  
On the correct use of perturbation theory for the calculation of one-particle Green functions  
phys. stat. sol.(b) 153 (1989), 623 - 631
59. J. Monecke  
Microstructure dependence of material properties of composites  
phys. stat. sol.(b) 154 (1989), 805 - 813
60. J. Monecke  
Collective excitations in microcrystal aggregates and composites  
phys. stat. sol.(b) 155 (1989), 437 - 444
61. J. Monecke  
Can bound states be obtained by perturbation theory?  
phys. stat. sol.(b) 155 (1989), K103 – KK104
62. K. Göhlert, G. Irmer, L. Michalowsky, and J. Monecke  
Polytype analysis of SiC powders by Raman spectroscopy  
Journal of Molecular Structure 219 (1990), p. 135 - 140
63. B.H. Bairamov, G. Irmer, J. Monecke, and V.V. Toporov  
Identification of impurities in GaP by Raman spectroscopy  
Journal of Molecular Structure 219 (1990), p. 19 – 24
64. K. Göhlert, G. Irmer, L. Michalowsky und J. Monecke  
Polytypenanalyse von SiC mittels Ramanspektroskopie  
Mat.-wiss. und Werkstofftechnik 21 (1990), S. 108 - 112
65. J. Monecke  
Microstructure dependence of effective material constants of composite  
Material Science Forum, vol. 62-64 (1990), p. 755 - 756
66. B.H. Bairamov, V.V. Toporov, G. Irmer, and J. Monecke  
Inelastic light scattering characterisation of epitaxial grown III-V-semiconductor microstructures  
Superlattices and Microstructures 9 (1991), p. 363 – 365

67. J. Monecke  
Application of perturbation theory to superlattices  
Superlattices and Microstructures 9 (1991), p. 367 - 369
68. M. Herms, G. Irmer und J. Monecke  
Aufbau einer Ramanmikrosonde mit hohem lateralen Auflösungsvermögen  
Experimentelle Technik der Physik 39 (1991), S. 83 - 88
69. J. Monecke  
Phonons in mixed crystals  
Journ. of Physics: Condensed Matter 3 (1991), p. 4809 - 4816
70. G. Irmer, W. Siegel, G. Kühnel, J. Monecke, F.M.M. Yasuoka, B.H. Bairamov,  
and V.V. Toporov  
Determination of the hole concentration and mobility of p-GaP by Hall and by  
Raman measurements  
Semicond. Sci. Technol. 6 (1991), p. 1072 - 1078
71. B.H. Bairamov, V.A. Voitenko, I.P. Ipatova, V.V. Toporov, G. Irmer,  
J. Monecke, and E. Jahne  
Characterisation of III-V-compounds by quasielastic electronic scattering of light  
Applied Surface Science (North Holland) 50 (1991), p. 300 - 302
72. M. Herms, G. Irmer, J. Monecke, and O. Oettel  
Determination of the charge carrier concentration across growth striations in n-  
GaAs by Raman spectroscopy  
Journ. of Applied Physics 70 (1992), p. 432 - 435
73. O. Pätzold, G. Irmer, and J. Monecke  
High spatial resolution Raman investigations of grown-in dislocations in Si-doped  
GaAs  
Crystal Research & Techn. 27 (1992), K11 – K16
74. O. Pätzold, G. Irmer, and J. Monecke  
As-decoration of grown-in dislocations in n-type GaAs  
Crystal Research & Techn. 27 (1992), K73 – K75
75. J. Monecke and W. Cordts  
Possibility of bound states obtained by perturbation theory  
Phys. Rev. A 45 (1992), p. 4254 - 4258
76. J. Monecke, J. Kortus, and W. Cordts  
Formation of impurity bands in doped semiconductors  
Phys. Rev. B 47 (1993), p. 9377 - 9384
77. O. Pätzold, G. Irmer, J. Monecke, S. Griehl, and O. Oettel  
Micro Raman study of dislocations in n-type doped GaAs  
Journal of Raman Spectroscopy 24 (1993), p. 761 – 766

78. G. Irmer, M. Herms, J. Monecke, V. Vorliek, and I. Gregora  
Second order Raman scattering of LO-Phonon-Plasmon Modes in  $\text{GaAs}_{1-x}\text{P}_x$   
Solid State Commun. 87 (1993), p. 99 - 104
79. J. Monecke  
Bergman spectral representation of the simplest possible expression for the dielectric response of a symmetric two-component composite  
Journal of Physics: Condensed Matter 6 (1994), p. 907 - 912
80. O. Pätzold, G. Irmer, J. Monecke, V.V. Toporov, and B.H. Bairamov  
Quasielastic Raman scattering in n-type GaAs  
Semicond. Sci. Technol. 9 (1994), p. 81 - 86
81. J. Kortus and J. Monecke  
Formation of subbands in d-doped semiconductors  
Phys. Rev. B 49 (1994), p. 17216 - 17223
82. B.H. Bairamov, I.P. Ipatova, G. Irmer, J. Monecke, V.K. Negoduyko

## **2. Publikationen in Büchern und Tagungsbänden**

1. J. Monecke

Cluster approximation with magnetic coupling

Proceedings of the 7th Autumn School on Magnetism of the TU Dresden, 1976, 05-15-76

2. G. Irmer, A. Heinrich, and J. Monecke

Raman-active phonons in  $\text{ZnSiP}_2$

Tagungsband des Koll. 4 des BHT 1977, Freiberg, 1977, S. 181 - 190

3. G. Irmer und J. Monecke

Nachweis von Verunreinigungen in Verbindungshalbleitern mittels Ramanspektroskopie

Tagungsband der III. Arbeitsberatung Ramanspektroskopie, Erfurt, 1981, S. 25 - 28

4. G. Irmer, J. Monecke, B.H. Bairamov und V.V. Toporov

Bestimmung der chemischen Natur flacher Störstellen in n-GaP mittels

Ramanspektroskopie

Tagungsband der IV. Arbeitsberatung Ramanspektroskopie, Erfurt 1983, S. 34 - 37

5. G. Irmer und J. Monecke

Homogenitätsuntersuchungen an GaP- und GaAs-Substratscheiben mittels Ramanspektroskopie

Tagungsberichte des 29. Intern. Wiss. Koll. der TH Ilmenau, Ilmenau 1984, S. 121 - 123

6. G. Irmer and J.Monecke

Homogeneity of semiconducting materials investigated by laser Raman spectroscopy

Proceedings of the 3rd Symposium Optical Spectroscopy, Reinhardsbrunn 1984, Teubner-Texte zur Physik, Bd. 4, BSB Teubner, Leipzig, 1985, S. 228 - 231

7. H. Wiesner, W. Cordts, and J. Monecke

Self-consistent calculation of the band structure and of the total energy of silicon with different local and non-local exchange-correlation potentials

Proceedings of the 14th Annual Intern. Symp. on Electronic Structure of Metals and Alloys of the TU Dresden, 1984, p. 28 - 31

8. J. Monecke

Zur Theorie der Fermi-Resonanz

Tagungsband der V. Arbeitsberatung Ramanspektroskopie, Erfurt 1985, S. 30 - 34

9. W. Cordts, G. Irmer, and J. Monecke

Influence of the Fröhlich interaction on the spectrum of bound charge carriers and on the phonon spectrum in polar semiconductors

Proceedings of the 15th Annual Intern. Symp. on Electronic Structure of Metals and Alloys of the TU Dresden, 1985, p.176 – 178
